Contents

<i>List of contributors</i>	vii
<i>Preface</i>	ix
Stress in finfish: past, present and future – a historical perspective	1
B.A. BARTON	
Effects of rearing conditions on the health and physiological quality of fish in intensive culture	35
G.A. WEDEMEYER	
Effects of stress on reproduction and growth of fish	73
N.W. PANKHURST and G. VAN DER KRAAK	
The endocrinology of stress	95
J.P. SUMPTER	
Ionic, osmotic and acid–base regulation in stress	119
G. McDONALD and L. MILLIGAN	
Behavioral responses to stress	145
C.B. SCHRECK, B.L. OLLA and M.W. DAVIS	
Genetic basis to the stress response: selective breeding for stress-tolerant fish	171
T.G. POTTINGER and A.D. PICKERING	
Immune–endocrine interactions	195
P.H.M. BALM	
Dietary effects on stress and health	223
T.C. FLETCHER	

Measurements of stressed states in the field J.D. MORGAN and G.K. IWAMA	247
<i>Fish species list</i>	269
<i>Index</i>	271
